## INTERACTIVE SOLUTIONS

Attract customers by presenting your products in an innovative and entertaining way.  
Provide a unique experience that your clients will remember.  
We help you design your project and provide support every step of the way.

### atracTable – multi-touch evolved

- Make the table react to objects when placed on its surface
- Mix tangible products with virtual information
- Display any type of media and make it interactive

### beMerlin – enchant your customers

- “Minority Report-like” touchless interface
- Create an immersive user experience
- Wide range of possible interactions

### ICU – experiential marketing system

- Touchless interaction – detects users' face movements
- Modify your ads based on user behavior
